

UNIVERSITY OF NOTRE DAME
DEPARTMENT OF AEROSPACE AND MECHANICAL ENGINEERING

The Department of Aerospace and Mechanical Engineering at the University of Notre Dame in South Bend, Indiana invites applications for tenure-track faculty positions. All areas of aerospace and mechanical engineering will be considered, but applicants that complement existing strengths in flow physics and control, robotics/controls, bioengineering, materials, manufacturing and computational sciences aligned with these areas are especially encouraged to apply. The Department seeks to attract, develop, and retain excellent faculty members with strong records and future promise. The Department is especially interested in candidates who will contribute to the diversity and excellence of the University's academic community through their research, teaching, and service.

The search is aimed at the assistant professor level, but exceptional candidates at all levels will be considered. All applicants must have an earned doctorate in an appropriate discipline. Successful candidates will have demonstrated the potential to achieve an internationally distinguished record of scholarship, a diverse, externally funded research program, excellence in undergraduate and graduate education, and active service within both their research community and the university.

Applicants should submit a CV, research statement, teaching statement and contact information for three professional references via <http://apply.interfolio.com/45290>. To guarantee full consideration, applications must be received by November 20, 2017; however, review of applications will continue until the positions have been filled.

The University is an Equal Opportunity and Affirmative Action employer; we strongly encourage applications from women, minorities, veterans, individuals with a disability and those candidates attracted to a university with a Catholic identity.
