# Table of Contents

---

Section I: Cardiovascular Applications		
Becker, Kyle	A biomaterials review of coronary stents: Bioresorbable devices	4
Deuerling, Justin M.	Failure of small diameter synthetic vascular bypass graft	19
Fleege, Kyle	Critical review of ventricular assist devices	36
Henkels, Julia	Biomaterials in hemodialysis	49
Klein, Steve	Reduction of thrombogenesis of mechanical heart valves through material selection and surface treatment	65
Mason, Kevin M.	Biomaterials in the artificial heart	81
Puglisi, Nick	The environmental biodegradation of polyurethane pacemaker lead insulation	92
Weiss, Holly	Critical review of the biomaterials utilized in ASD repair: A historical study	102
Section II: Dental Applications		
Coleman, Kevin	A review of glass ionomer cements for orthodontic bonding	118
Elpers, Michael B.	Review and microstructural analysis of composite materials used for dental crown prostheses	128
Section III: Ophthalmological Applications		
Converse, Gabriel L.	Metallic and polymeric orbital floor implants	144
Hogan, Nathan A.	Critical review of biomaterials used for intraocular lenses	162
Laumann, Eric	Biomaterial review of the soft contact lens	176
L'Heureux, Rob	Review of the progress and suitability of perfluoropolyether (PFPE) polymer as corneal implants	195
Polowski, Theresa	Critical review of gold and the upper eyelid implant	204

## Table of Contents (Continued)

---

Section IV: Orthopaedic Applications		
Halvorsen, Brannon	Metallic and biodegradable screws	216
Hollingsworth, Nathaniel	Synthetic anterior cruciate ligament scaffold materials	226
Jackson, Eileen	Polymer synthetic bone graft substitutes	238
Lammermeier, Jeff	An overview of the biomaterials and processing-structure-property relationships in total-hip arthroplasty (THA)	248
Phillips, Mary	A review of biomaterials in the total shoulder prosthesis	264
Reis, Ryan	Analysis of biomaterials associated with spinal fusion	277
Rutten, Andy	Review of weight-bearing articular cartilage grafts	289
Shi, Xiutao	Critical review of biomaterials in total knee replacements	302
Slaboch, Constance	Critical review of total elbow arthroplasties	315
<hr/>		
Section V: Otological Applications		
Landrigan, Matt	Biomaterials of the cochlear implant electrode housing	327
Murphy, Katie	Biomaterials for middle ear implants	344
<hr/>		
Section VI: Other Applications		
Barbera, Nathaniel	Absorbable sutures: A review	356
Dueffert, Kim	Biomaterial review of breast implants	369
Jacobs, Mike	A critical review of the development of artificial skin graft substitutes	378
Keilty, Jackie	Neural prostheses: A review of biocompatibility, cell adhesion and electrode characteristics	392
Reimer, Bill	Mechanical biosensors: A critical review of the application of BioMEMS in vivo	408
Ross, Ryan	A review of biomedical suture materials	420
Toomey, Michael	Insertion, usage, and infection complications of Hickman lines and port-o-catheters	434
